

Huff Company provides complete product offerings for airborne noise, structure borne noise and air filtration. We work with our customers to provide engineered solutions for successful installations. We pride ourselves on excellent customer service providing owners, acoustical consultants, engineers and contractors solutions for all noise and IAQ issues.

Vibration & Mechanical Sound Control

- **Structure Borne Noise Reduction**
 - Equipment Vibration Isolation
 - Pipe and Duct Isolation
 - Flexible Pipe Connectors
- **Airborne Noise Reduction**
 - Sound Blankets
 - Acoustical Louvers & Sound Attenuators
 - Barrier Walls / Equipment Enclosures
 - Roof Curb Acoustical Treatments
 - Acoustic Pipe and Duct Lag
- **Pipe Stress and Pipe Restraint**
 - Expansion Joints, Compensators, "V" & "U" Loops
 - Anchors, Guides and Riser Spring Isolation
 - Cable Restraint Kits
- **Delegated Design Engineering Services**
 - Cooling Tower Support Steel
 - Pipe Stress Analysis
 - Custom "One-Off" Solutions

Environmental & Air Filtration

- **New Equipment**
 - Carbon Exhaust Scrubbers
 - Cleanrooms
 - Clean Room Work Stations
 - Cooling Coil UV-C
 - HEPA Filter Boxes
 - Pharmaceutical Clean Room Applications
- **Foremarket**
 - Box & Bag Filters
 - Carbon and HEPA Filters
 - Pleated Filters
- **Additional Offerings:**
 - Design Assistance
 - Particulate and Molecular Air Sampling
